

BLOCK F - Octagon Block - Make 11

1. Cut four rectangles $2\frac{1}{2}'' \times 1\frac{1}{2}''$, one from each of four different prints.
2. From two of the same prints used to cut the above rectangles, cut four $1\frac{1}{2}'' \times 1\frac{1}{2}''$ squares- two from each print.
3. Cut four cream squares $1\frac{1}{2}'' \times 1\frac{1}{2}''$.
4. Cut a cream center square $2\frac{1}{2}'' \times 2\frac{1}{2}''$.
5. From the print squares cut in step 2 and and the cream squares cut in step 3, make four half-square triangle blocks. *Use the general half-square triangle instructions on page 3.*
6. Assemble the block as shown in the diagram, then sew the three sections together.
